### IMPROVING TEMPLE SECURITY

Like religious institutions across the country, Temple Beth Emeth regularly reviews security policies and procedures, consults with experts and takes steps to enhance the security of our congregation, clergy and sacred religious articles while preserving the spirit and sanctity of our amazing institution.

One policy many religious (and educational) institutions have implemented, which Temple Beth Emeth has now adopted as well, is keeping outside entrances to our sanctuary locked at all times.

Teachers and clergy will continue to be at the doors welcoming students into the building for religious school, and a greeter will be at the door welcoming congregants to Friday night services.

Thank you in advance for supporting and adhering to this policy change.
